American Interfaith Artists' Group

Interfaith Artists ...

expressing from the heart of Oneness

Thank you for your interest in the Interfaith Arts.

Since the beginning of time, we, as human beings have had a desire to express, in some creative form, what is meaningful to us. What touches our hearts is experienced on such deep and profound levels, that often, the search for words to express it is fruitless.

“God” is a shared experience by all living creatures. Depending on the beliefs you were taught growing up, your personal experience of God will probably be different from that of your neighbor, or the taxi driver in another country on the other side of the world!

The intention of American Interfaith Artists’ Group is to share with others, the artistic expression of our Interfaith spiritual experience in many varied creative forms, so that it may touch the heart of the observer, opening the door to understanding, compassion and harmony. To educate the public about interfaith spiritual values and multifaith spiritual expression while teaching about the world’s religions and faith paths through art of many and all mediums.
